

Urban Eyes is committed to the well being and health of our patients and staff. We are following protocols of the American Optometric Association, CDC, and World Health Organization. As we learn more about COVID-19 virus, our protocols may change. At this time will not be seeing patients for routine Eyecare. Visits are based on visual necessity only. Please have patience. We are all in this together.

Currently, we are screening every patient

- Temperature will be taken at the door
- No symptoms that may be related to a cold, flu or allergies will be permitted
- If you have recently traveled within the last 2 weeks, please reschedule
- Only the patient will be permitted to enter the office, unless they are a minor
- Due to social distancing, curb side service may be scheduled

We recognize the trust you place in us and want to assure you that we have contingency plans in place to minimize potential impact. If you have any further questions or concerns, please call our office or email us. We are here for you. Stay safe everyone!
